

REPLUMPING

REPLUMPING IS A FAMILY OF REPLUMPING AND ELASTICIZING PRODUCTS FOR ALL HAIR TYPES

Davines research laboratories presents a new hair treatment with replumping and elasticizing properties.

The new Naturaltech Replumping treatment is inspired by the "filler" methodology with Hyaluronic Acid, treatments that are capable of restoring elasticity.

Hyaluronic Acid, recognized for its ability to retain water and fill areas lacking in hydration, is the key ingredient in the Naturaltech Replumping Hair Filler Superactive products. It restores the amount of water that the hair needs for a replumped, compact and smoothing effect.

The Naturaltech Replumping treatment starts in the salon by using Replumping shampoo and if necessary Replumping conditioner. At the end of the first phase the hair is ready to receive Replumping Hair Filler Superactive with Hyaluronic Acid. After only 10 minutes, the hair is compact, silky and replumped.

At home, to extend the benefits of Naturaltech Replumping treatment we recommend using Replumping Hair Filler Superactive leave-on spray with Hyaluronic Acid that leaves the hair compact, toned and replumped. It provides a longer-lasting style and helps combat humidity.

NATURALTECH™
NATURE + MAN + TECHNOLOGY

DESIGN

*Innovative packaging
Pharmaceutical appeal*

ADVANCED FORMULATION

*No sulfates: sles / sls
No parabens*

EFFECTIVENESS

*Phytochemicals
Strong multifunctional Superactives*

UNIQUENESS

*Immediate and understandable labels
User friendly*

PLEASANTNESS

*Fragrance based on essential oils
Unique products texture*

IN-SALON SPECIFIC TREATMENTS

*Service: all type of scalp solutions
Experience: personalized massages*

The Replumping family contains four products: Shampoo, Conditioner, and two Hair Filler superactives, one in salon treatment and one home maintenance product. As with all Naturaltech products, the formulations do not contain parabens and the shampoo is formulated without sulfates.

Phytochemicals: The formulas are enriched with plum phytochemicals, rich in polyphenols

and flavonoids, precious anti-oxidant substances that combat free radicals and have tonifying and elasticizing properties.

Essential oils: The fragrance contains petit grain essential oil which is extracted from bitter lemon leaves that has compacting properties.

REPLUMPING SHAMPOO pH:5.5

*Elasticizing and hydrating shampoo for all types of hair.
The delicate surfactants create a rich texture, the shampoo is ideal for all types of hair.*

*How to use
Apply to scalp and damp hair, massaging gently. Rinse carefully and repeat if necessary.*

*Frequency of application
Use in the cases of hair lacking in elasticity, hydration and tone.*

REPLUMPING CONDITIONER pH:4

Elasticizing and hydrating conditioner for all types of hair.

*How to use
After shampooing, apply to towel-dried hair along the lengths and ends. Process for a few minutes, comb through and rinse thoroughly.*

*Frequency of application
Use in the cases of hair lacking in elasticity, hydration and tone.*

REPLUMPING HAIR FILLER SUPERACTIVE pH:7.2 Home maintenance

Specific and multi active concentrate with replumping and compacting action on all hair types.

*Active ingredient
Enriched with Hyaluronic Acid that ensures a strong hydration and protection from stress as it withholds water and gradually releases in on the structure of the hair.*

*How to use
After Replumping shampoo and if necessary replumping conditioner, for fine hair apply 4-6 pumps, for medium hair apply 10-15 pumps and for coarse hair apply from 20 pumps on lengths and ends of towel-dried hair. Do not rinse and proceed with styling.*

*Frequency of application
Use when desired and to prolong the benefits of the Replumping salon treatment.*

REPLUMPING HAIR FILLER SUPERACTIVE pH:5.2 Salon treatment

Specific and multi active concentrate with replumping and compacting action on all hair types.

*Active ingredient
Enriched with Hyaluronic Acid that ensures a strong hydration and protection from stress as it withholds water and gradually releases in on the structure of the hair.*

*How to use
After Replumping shampoo and if necessary replumping conditioner, apply roughly 20gr / 0,68fl.oz. of Replumping Hair Filler Superactive on towel-dried hair working section by section and gently massage. Process for 10 minutes then rinse. Proceed with styling. It is possible to use a damp heat source: in this case the processing time is reduced to 5 minutes.*

*Frequency of application
Use every 6-8 washes.*

NATURALTECH™ PRODUCTS

ENERGIZING

Energizing is a family of stimulating products for scalp and fragile hair prone to falling out and offers a preventive treatment for various forms of alopecia. All formulas are characterised by a high concentration of multipurpose active ingredients such as caffeine phytochemical, combined with sirtuins and beta-glucans.

NOURISHING

Nourishing is a family of nourishing, moisturizing and restructuring products for dehydrated scalp and dry and brittle hair. All the formulas contain phytochemicals extracted from grapes.

PURIFYING

Purifying is a family of antiseptic products for both dry and greasy dandruff. All the formulas in this family are enriched with phytochemicals extracted from dandelions.

REBALANCING

Rebalancing is a normalizing and rebalancing family, for scalps with sebum hyperproduction. The Rebalancing Shampoo formula contains phytochemicals extracted from lemon.

CALMING

Calming is a family of soothing and skin relieving products for sensitive scalp. The Calming Shampoo formula contains phytochemicals extracted from blueberries.

DETOXIFYING

Detoxifying is a family of detoxifying, regenerating and revitalising products for scalp lacking tone and hair stressed by environmental factors, as pollution. All the formulas are enriched with phytochemicals extracted from artichokes.

WELL-BEING

Well-Being a family of moisturizing products for all scalp and hair types. It can also be used between different Naturaltech treatments. All the formulas contain phytochemicals extracted from echinacea.
